

1986-1993 Volvo 240 Front Brake Calipers Replacement

Volvo 240 front brake caliper prerequisite guide.

Written By: David Hodson

INTRODUCTION

Removing the brake caliper from the rotor is a necessary step for many repairs and modifications.

TOOLS:

- [15 mm Box End Wrench](#) (1)
-

Step 1 — Front Brake Calipers

- Use a 15 mm box end wrench to remove the two bolts on the back of the brake caliper.

Step 2

- Lift the brake caliper off the rotor and set it aside.
- Place the caliper on some type of support so that you do not put too much strain on the brake hose.

To reassemble your device, follow these instructions in reverse order.
